My name is Vissutty Teddy Yin. I would like to request for a hearing because I think that the order should be changed. The letter that I wrote to the Auditing manager was not an admittance that I converted the premium into personal used but rather I was trying to convey a message to the Auditor that I am responsible person and was willing to pay what ever amount of premium that was supposed to be paid to farmers insurance but not committed to any violation such as transferring the premium for personal use.

The status that I am an untrustworthy person also has a negative impact on my reputation because it is available in public record on the internet. I am actively volunteering for the United Nations Association of Cambodia which has two offices one in the Seattle and another one in Phnom Penh, Cambodia. I have been contributing a lot of my effort with this organization. I would like to contest this order so please consider my hearing.

I have talked with my District Manger, and he is well aware of my situation at the time I was departing from Farmers Insurance. He also knows that I did not convert the money for personal used. I did have a rough departure from Farmers because I was extremely depress and couldn't accept that after I had work so hard to sell life insurance policies but still was not enough to meet the minimum requirement to stay as an agent. If the license is allowed for a reinstatement, my District Manager will hire me as an agent with Farmers again.

I would like to have my District Manager representing me at the hearing. He will not be available in the week of June 20th, 2005. Thank you for your time and consideration.

Best regards,
Vissutty Teddy Yin
